InspectGPT (Development)

Your AI code Inspector and Assistant.

Features

- InspectGPT explains your highlighted code segment based on the context of your whole coding project.
- InspectGPT correct errors and suggests improvements to your code.
- InspectGPT allows **followup** questions and gives comprehensive response.
- Many more...

Features on the way

- Enablement of all programing languages
- Integration of Stackoverflow
- · Access to official documentations
- Integration of GPT 4.0

When InspectGPT is ready:

Wait for the InspectGPT:

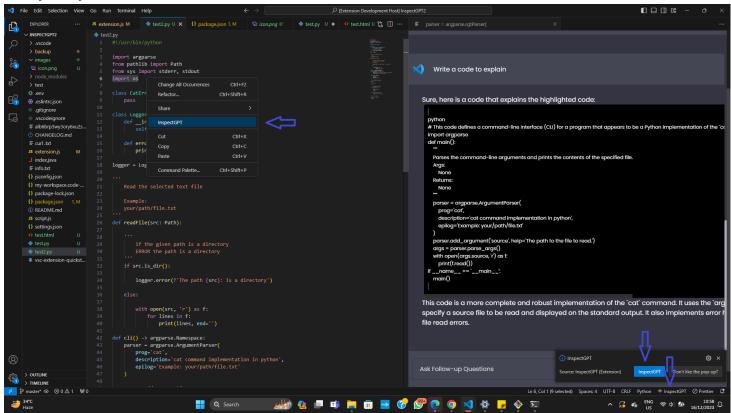

Here you go!

Ask follow-up Questions:

3-way entry:

Requirements

Does not require API key.

Extension Settings

This extension contributes the following settings:

• InspectGPT.deactivate-Popup-Window: Enable/disable 'InspectGPT' pop-up.

Known Issues

Works with only *Python* files for now. Anticipate updates.

Release Notes

1.0.1

Initial Release of InspectGPT.

3.0.5

Up To date.
